

The graph displays a positive correlation between the number of countries and the number of species. The x-axis represents the number of countries, ranging from 0 to 10. The y-axis represents the number of species, ranging from 0 to 10. The data points show a general upward trend, indicating that as the number of countries increases, the number of species also tends to increase.

Number of Countries	Number of Species
0	0
1	1
2	2
3	3
4	4
5	5
6	6
7	7
8	8
9	9
10	10
